Topic of the session

Topic 1	Change Auditing for OS, Databases, Directories, & Network Devices
	<p>How do you identify and fix unauthorized changes to your IT infrastructure and data, whether caused by a malicious hacker or careless employee? Today's proactive configuration audit and control tools deliver the control you need to keep systems and data in a known and safe state.</p> <p>(20 mins)</p>
Topic 2	Internet Bandwidth Management & Optimization
	<p>Is the email download slow in the morning? Is everybody else hogging the bandwidth with Facebook and MP3 downloads? How can we ensure the web-based CRM or Accounting system is always accessible? Wouldn't it be great if you can actually prioritize and manage the bandwidth by Person (e.g. CEO), Application (e.g. emails) and Time (e.g. peak hours)?</p> <p>(20 mins)</p>
Topic 3	Simplified Management of Complex Security Environments
	<p>Do you put in too much time & labour managing your network & security infrastructure just to comply to auditor needs? What do you think of the idea of using ONE screen to make sense and react to all security threats & forensic before your business is impacted?</p> <p>(20 mins)</p>

Kindly call **03 – 2264 3000** or email to marketing@transniaga.com to reserve your seats!
